

VOLUME XIII. NUMBER 21

WAINWRIGHT, ALBERTA, WEDNESDAY, APRIL 26th, 1921

PRICE \$2.00 Per Year in Advance.

## COURT OF REVISION

## WILL MEET ON MAY 10TH.

Council has busy session; Sidewalk petitions meet with mixed reception; improvements at rink reported complete; Councilor Fish appointed Deputy Mayor; Town scavengers position to be advertised.

The regular meeting of the Town Council was held on Tuesday evening last when there were present—Mayor Lally and Councilors Davidson, Fish, McLeod, Montgomery and Wiley.

On the motion of McLeod, Davidson the minutes of the previous meeting were adopted as read.

A communication from the local branch of the U. F. W. A. re the use of lot 8 blk 10 to place thereon a building for use as a rest-room.

Davidson—Montgomery—That this Council grant, the U. F. W. A. the use of lot 8 block situated on Main street, to build thereon a rest-room, subject to sale of said lot.—Carried.

A letter from the South Hall hospital Edmonton with regard to some expenses incurred there.

McLeod-Davidson—That communication from South Hall hospital be laid over and secretary write for further information, as this was to have been paid by 12th of April.—Carried.

The following petitions were read by the secretary—  
"To the Mayor and Council—Gentlemen: Whereas there is at present no sidewalk constructed on Fourth avenue between the intersections of that street with King Street and Ontario street in the said town; and whereas the said avenue is subject to flooding between the above-named points and this flooding causes great hardship and inconvenience to property owners and residents on the said avenue; now, therefore, we the undersigned, residents and ratepayers of the said town of Wainwright hereby petition the Council of the said town to construct, or cause to be constructed a proper sidewalk on the south side of the said avenue between the said two streets."

This petition was signed by eleven signatories.

Atlas Lumber Co. per J. Welch Davidson—McLeod—That communication for request for sidewalk on Fourth avenue east be referred to Public works committee, to be reported upon at next meeting.—Carried.

The Secretary Town of Wainwright  
Dear Sir: We the undersigned respectfully beg to call your attention to the present condition of Fourth avenue west from the office of the Atlas Lumber Co., to the residence of Mr. W. Turpenning. The road in its present state is now practically impassable for pedestrians and we are of the opinion that a few loads of ashes or cinders laid along the north side of this avenue between the above-mentioned places would make a satisfactory sidewalk and be much appreciated. Hoping that you will see your way clear to cause some work to be done along these lines in the near future.

A. Liddle  
W. H. Turpenning  
Mrs Mary Brunner  
R. D. Henry

Fish—Wiley—That chairman of Public Works Committee be authorized to proceed with work of having cinders hauled and spread in suitable grade to conform with petition of ratepayers residents on Fourth avenue west and Queen street west.—Carried.

To the Mayor and Council—Gentlemen: I would respectfully bring to your attention the dangerous condition of the sidewalk on Main street fronting the two fifty-foot lots at the west corner of Third avenue and request that your honorable body immediately replace the guard-rail which has been destroyed at this spot. This is for the better protection of the public as this spot is proving really dangerous to pedestrians who use this particular walk to and from any place of business.

W. T. Brunner  
Elite Theatre Co.

Davidson—Montgomery—That chairman of Public Works Committee be instructed to at once put up guardrail on west side of Main street between corner of

## ROSEMOVE RAMBLES

The ducks and geese have made their appearance.

Quite a number from around here attended the dance at Arm Lake Friday, and reported a good time.

Mr. Cecil Hines is busy loading a car of oats.

Mr. V. S. Snyder and Otto Dempsey were Edgerton visitors on Monday.

Mr. Elsie Hurley is working for Mrs. Doyle in Edgerton at present.

The dance at Fred McBrides on Tuesday night was quite well attended and all report a jolly good time.

Mr. Tom Jackson got kicked quite badly on the shoulder last week by a cow he was breaking.

The Rt. Rev. Dr. Newham, the bishop was present at the services in the school on Sunday last.

As we go to press we learn that Mrs. Martinell of McCaffery who has been ill for the past year or more passed away Wednesday night. We extend sincerest sympathy.

Mr. A. Scofield also urged that this should be done if at all possible and stated that this seemed to be the feeling of most of the residents. This gentleman also offered to take up three or four hundred dollars worth of town bonds if such action on his part would help along in the matter.

In thanking these speakers for the interest they were showing, the Mayor pointed out that the matter was being dealt with by committee and possibly a report from them would be forthcoming at the next meeting.

The Finance Committee's report recommended payment of a/c to a total of \$2601.30 and Wiley—Fish—That report of Finance Committee be adopted and that cheques be issued covering the several accounts.—Carried.

Councillor Wiley presented report of Fire-Chief which showed that all the town's apparatus is in good shape except for one length of hose and that a new coupling and some wrenches were needed.

Fish—Wiley—That Fire-Chief Mills be instructed to purchase necessary wrenches for engine on an order from the secretary, and that the secretary order the necessary repairs for hose on chemical apparatus.—Carried.

The Assessment and Property Committee reported the completion of the repairs and alterations at the rink.

With regard to the petition for a sidewalk to the new telephone building, Councillor McLeod reported progress on this matter and promised a report for the next meeting.

The fire-chief having asked that a public meeting of the fire-brigade and all others interested be called, it was moved.

Wiley—Fish—That a meeting of the fire-brigade be called for the evening of May 10th in the Council chamber and that this be advertised in The Star and by posters.—Carried.

Fire-inspector Glass reported that accordance with instructions given at the previous meeting he had inspected all dwellings in the fire area and had found several defects. These had all since been put right.

McLeod-Davidson—That report of fire-inspector be accepted and filed.—Carried.

With regard to the purchase of trees for planting on town streets it was decided that under their retrenchment policy, the Council would let this matter drop.

The matter of scavenging for the town having been brought before the Council, it was moved.

Montgomery—McLeod—That, owing to re-arrangements of salaries, applications be called for to fill the position of scavenger at a salary of \$800.00 per month.—This motion was lost.

It was then moved in amendment by Davidson—Fish—That the secretary be instructed to call for applications for position of town scavenger at a salary of \$100.00 per month; applications to be in secretary's hands by May 1st.—Carried.

With regard to the question of the electric light plant, the Mayor mentioned that Councillor Dewar had this matter in hand and that it would probably be brought up at the next meeting of the Council.

Secretary Pawling, speaking as a liquidator of the Wainwright Light and Power Co., stated that for the past two years himself

## CLEARED NICE SUM

W. I. SALE

The regular meeting of the W. I. was held at the home of J. G. Middlemass on Saturday, April 24th when 20 members and 2 visitors attended. One of the visitors, Mr. J. G. Morton, gave those present a very interesting talk on tree culture from his own experiences along this line. It was reported to the meeting that despite the bad weather for the house cooking sale the institute had netted \$17.40.

\*\*\*\*\*

## FIRST WHEAT SOWN

Possibly the first wheat sown in the district for 1921 is reported by Mr. R. H. Vallee, who drilled 16 acres on Thursday last.

\*\*\*\*\*

The Elite Theatre management will put on a dance every two weeks on Mondays. Friday this week after the show, good music is being arranged.

\*\*\*\*\*

Get that suit now: sale prices will be withdrawn at the end of month.—Zinkin and Co.

\*\*\*\*\*

Elop Swanson, of the Rorads district was in town having some dental work done.

\*\*\*\*\*

Mr. Jas. Braecerville arrived from Vancouver last week and is busy among the hardware at the Washburn store.

\*\*\*\*\*

Owing to the receipt of urgent news of the serious illness of her mother, Mrs. W. H. Robinson left on Thursday for her old home at Thessalon, Ontario.

\*\*\*\*\*

Mr. George Bouchard, of Quebec city arriving in town last Friday. He is visiting his sister Mrs. Q. L. Michon.

\*\*\*\*\*

Don't forget the series dance Friday night this week after the show three hours, the music will be the best procurable for the occasion.

\*\*\*\*\*

Recent snowfalls and sudden thaw causes washouts

On Sunday last, the Canadian National, experienced some bad washouts near Taks, Sask., which have caused great inconvenience to the travelling public.

Owing to doubt to the recent heavy snowfall followed by the sudden thaw, a big slough in the vicinity of the above place and which is founded on the north by the C. P. R. and on the south by the C. P. P. has assumed the proportions and depth of a fair sized lake and has washed out the G. T. P. track in three different places, carrying away big culverts which have heretofore always taken care of these overflows.

Sunday's No. 1 was stalled just after leaving Scott, and No. 2 had nearly reached this same first wash-out when it was immediately hemmed in by a second wash-out occurring behind it to the West.

An auxiliary and wrecking gang in charge of conductor Chas. Gosman was immediately dispatched from Wainwright but before it reached the stalled train it ran right through a third wash-out with the result that a dozen cars were ditched and these all took fire and were burned.

Tommy Robinson, of the "B and B" gang receiving some painful injuries.

A pile-driver and crane, and other wreck equipment were dispatched from Edmonton and with a large staff of men had a big job to make repairs but their efforts resulted in some measure of success, and by late Monday night a special was brought back from the scene of the occurrence carrying some few passengers who had been able to make the transfer around the washout.

We are pleased to state that the injured man Robinson was not as badly hurt as was at first feared, and also that the whole length of the inundation is being rapidly put into shape again.

The affair has certainly played havoc with the mail service and incidentally the supply of "ready-print" for this week's "Star" is still "somewhere in transit."

See Pawling for Town Bonds

## WAINWRIGHT BOYS WINNERS AT CITY SPRING STOCK SHOW

The four Wainwright boys—Jack Cunningham, Miles Mabey, Lee Mabey and Phillip Stuart—returned home on Saturday last from Edmonton where they had been exhibiting their calves, sheep and pigs at the big Spring live stock show.

To give a short resume of the efforts these lads made to advance their interests and knowledge it is only necessary to state that last November they procured the very best calves they could find in the vicinity—and they were real good ones at that—

which then weighed around 700 lbs apiece and were seven and eight months old and after feeding these for four months more had them weighing 1000 lbs apiece at a year old, thus making an average gain in weight of 70 lbs a month.

But the boys found upon arrival at the show, however, that they were beaten by finer bred animals, their exhibits carrying the fat all right but being decidedly as to shape, which is only obtained by better and purer breeding.

The lads sold their animals at auction and received an average price of 11c per lb, while the champion fetched 30c per lb.

Among the awards during the show Mr. Harry Mabey received 2nd prize for his showing of two baby-beef steers and 3rd prize with his Hereford bull; Miles Mabey received 4th prize and Lee Mabey 7th prize in the bacon hog class, and Miles also took 6th award in the groups of five of this class as well as 4th for his showing of five dressed carcasses.

The brood sow showed by Miles took 7th place and his hard hog 3rd and Lee received the 5th prize for his medium thick sow.

Among the woolies, the boys were still "on to the game," and in the fat lamb class Miles took 4th and Lee 6th prize respectively in addition to which Miles walked off with the 1st award for his group of five lambs alive and 1st in the class for five dressed carcasses.

The wholesale prize-winning is truly highly commendable for the boys and should prove great encouragement to further efforts. Their combined winnings amounted to nearly \$300.00, besides which the calves when sold netted them nearly \$100.00 apiece, and in signing out their profits it is shown that they made practically 100 p. c. on sales alone leaving them their prize money to the good. The calves, cost them \$30 apiece last fall and their feed has averaged about \$20 for each animal.

All this redounds to the credit of the district is general, and Mr. Mabey is to be congratulated upon this effort to encourage the boys in better breeding and better feeding of live stock. We understand that the boys are now desirous of obtaining four of the very best calves in this district so as to feed them and prepare them for next year's show, and any of our readers having such will be conferring a favor by notifying The Star or Mr. J. W. Stewart, Wainwright.

\*\*\*\*\*

## BOX SOCIAL AT TRAFALGAR SCHOOL NETS GOODLY SUM

On Friday evening last a successful Box Social was held at Trafalgar school by the members and friends of the Methodist appointment held there by Rev. N. F. Priestley. The school house was well filled. Mr. A. H. Wilkie was elected chairman and presided over a brief programme of concert items.

After a lively period of indoor games, Mr. W. Goulet took charge and in his usual breezy manner auctioned the boxes. These were many and varied. Some went at high prices, others at more modest levels. The sum of fifty-two dollars was realized and everybody had a good time till the midnight hour.

Two loads of Wainwright friends travelled through the mud by wagon and hay rack.

The old suit, mended, cleaned and pressed may be used awhile yet; take it to Zinkin's.

## U. F. W. A. REST ROOM

## NOW BEING ERECTED

Will occupy lot on Main Street; Will be arranged so as to be capable of enlargement; Big opening ceremony being arranged.

After a long period of weighing the pros and cons, the Wainwright U. F. W. A. decided on Saturday last to go right ahead with their restroom project and on Monday morning, last a band of real enthusiasts "broke sod" and the builders are now "booming her along."

The idea of the members of the local is to hold a real grand opening on Saturday May 7th next in the new edifice when afternoon tea will be served and a sale of real home cooking will be held. In addition there will be other attractions to make the event such as a real honest-foolishness gipsy, with a brand new stock of fortunes, and in addition a sofa cushion and tea-cosy will be drawn for.

The bachelors of the district are asked to mark this date so as to make sure of obtaining a good supply of edibles (just like mother used to make).

All farm-women are expected

## POLITICAL INTRIGUE

## FORCIBLY SHOWN IN ELITE FILM FEATURE

Again the superiority of the new Super production service at the theatre is proved and tonight and tomorrow patrons will enjoy "The Figurehead" which is Eugene O'Brien's latest.

Bolton is the average American city of about half a million population. Busily engaged with their own affairs, the citizens of Bolton have allowed the control of party politics to be in the hands of two men, Jim Durfee, a saloonkeeper, and the Democratic party, while the Republican party is controlled by Gordon Freeman, prominent in social circles.

At a secret conference between the two leaders Durfee announces his intention to run for Mayor and instructs Freeman to put up one of his "silk stockings" Willies.

It is shown that Durfee may be a sure winner.

Sheridan Dows, a young society man, is selected by Freeman as the victim for the political altar.

At first Dows treats the whole matter as a joke, but decides to show Mary Forbes, the woman he loves, that he can really do something worth while. Mary, who takes life and its problems very seriously, is engaged in settlement work.

Mary, feeling that Sherry for the first time is really taking life seriously, agrees to help him in his campaign. Political parties are established and Mary takes charge of the office force. This gives much displeasure to Sylvia Freeman, daughter of the Republican leader, who has her cap set for Sherry.

Sylvia Freeman is consumed with hatred and jealousy and suggests to her father that Sherry can be hurt through Mary. They conspire, with the aid of a fake telephone call, to frame up on both Sherry and Mary by having them found in a compromising position late at night in the young candidate's headquarters.

Through the ready wit of Sherry the plot fails, in sheer desperation, causes to be published in his own political organ a scurrilous article tending to show that the association of Sherry and Mary is not altogether for political or business reasons.

This story appears on the eve of election, and Sherry is confronted with the damning article as he starts to address a large meeting before voters. Mary enters the hall and appeals to the editor of Durfee's paper whose child she had once nursed in an illness and saved from death. The editor mounts the platform and admits publicly that the article is a frame-up, lie, ordered, published by Durfee. Durfee's gang turns against him.

Final returns give Sherry an overwhelming majority. And Mary, the former skeptic, realizing that even a wastrel may be a man, begs forgiveness and offers her love.

\*\*\*\*\*

\*\*\*\*\*

\*\*\*\*\*

\*\*\*\*\*

## MISS BARRISCAL'S PRICE OF HEROISM, IS MARRIAGE

Salome asked for the head of John the Baptist as a reward for pleasing King Herod with the dance of the seven veils.

Mrs. Cackley, the beautiful mermaid in "The Woman Michael Married," who had saved the life of the boy-plot of the rich young society bachelors exacted from the grateful man that he marry her—a profession of a diver and swimmer—just marry her and give her his name and money, that's all.

This is the basis of the plot of Bessie Barriscale's latest Robertson Cole production distributed by Exhibitors Mutual, in which Miss Barriscale is cast as Mrs. Cackley, a professional feminine swimmer whose mission is to get enough money to enable her to cultivate her voice.

Mrs. Barriscale wears some gorgeous gowns of the ultra-type, and looks even more stunning in a one-piece bathing suit that doesn't conceal any of her physical charms, and fits "like the paper on the wall."

The stupendous feature will be shown at the Elite next Friday and Saturday.

\*\*\*\*\*

## TWO MEN BADLY INJURED ARE UNABLE TO OBTAIN RELIEF

A Red Cross worker in one of the ignominious sections of the West made a discovery last summer. She visited a saw mill camp and, while there, discovered two men one of who had chopped half his foot off with his axe and was unable to get any treatment for it.

The other had suffered a kick in the chin from a mule and the jaw bone was broken. He was unable to get the bone set. Both travelled 30 miles to a place where they hoped to find a doctor and they travelled in vain. When they arrived there they were all in. They were put to bed and remained there until, as in the case of animals, their hurts healed and they were able to go back to their work. The net result of their failure to receive attention at the proper time, or indeed at any time is that one will limp badly for life and the other will have a terribly disfigured face.

The Red Cross, organized for peace, will, by its guidance and expert advice, make it possible for all such far away communities to have something like adequate medical and nursing attention by equipping hospitals and nurses' quarters and providing suitable surgical and medical supplies for the treatment of all such and similar cases, whether of accident, disease or what not.

The Red Cross, it is realized, is needed now more than at any other time in the history of the country and it is earnestly hoped by these who are endeavoring to organize the humanitarian forces of the world that western Canadians to the very last man and woman, boy and girl, will join the Red Cross when the campaign is on from June 5 to 11.

Accounts rendered monthly.

WAINWRIGHT, ALBERTA, APRIL 20th, 1921

## COMMUNITY ASSET OF LOCAL PAPER

If a town were to check up its assets, chief among these would be its newspaper. It is the one valuable possession. It matters not so much who owns the stock of the publishing company, or who occupies the editorial chair, so long as the people recognize it as a public institution and have due appreciation of what it can mean to them. In a very real sense a town and its people may be judged by the kind and quality of paper that is published in their centre. If it is a live, energetic, foresighted publication, the town will be progressive and a live. If the paper is lifeless, dry and without forward purpose, apart from selling subscriptions and advertising space, there will be little or no progress and community spirit manifest.

No matter how efficient city papers may be, they can never take the place of a country weekly. There is a personality and flavor about a home town paper which cannot be furnished by any publication on earth. To the people of the district it is guide, philosopher and friend, and to those living away from the old home centre, its weekly coming is welcomed like a message from an absent friend.

It is the merchants' means of communicating with their customers. It is equally the buyer's shopping-place. The honesty of present day advertising commends itself to the public, and the home paper is becoming more and more the medium through which the purpose of legitimate advertising is made known. The time is close at hand when, instead of the publisher having to solicit the merchant to get advertising, advertising space in his paper will be sought for by the merchant as the one economic and practical means of reaching his buying public.

For the most part country papers have done a real service in fighting the battle of the community they serve. They see that the interests of a small town and of the farm are linked up together, and for the most part they have been warm supporters of the Modern Movement to give the common people a larger voice in the affairs of the nation. Despite the many and increasing difficulties under which the country publisher has had to work during recent years, we would like to see more of them conduct an editorial column or corner where they could express their opinions on public questions. Some of the country papers have excellent editorial columns, and it is really too bad that all of them do not feature this side of their paper. The rural editor is nearer to his constituency and is better able to summarize and express the opinions of his readers than is any other writer.

The rural newspaper is the intimate friend of every citizen; it knows everybody. It praises the good; censures the evil; and stands solidly for the progress and betterment of the community. It can do more than anyone single agency to bring unity and advancement to the district. The live newspaper supplies effective leadership to every industrial, social and moral movement. It makes for that accomplishment without which a town is inactive and dormant.

## JUSTICE TO THE LOCAL MERCHANT

Spring catalogues from several mail order houses have arrived in town, and will eventually land in almost every home and household. They contain a bookful of prices that look like bargains, which seem money savers from the first casual glance. These figures, however, are cash prices and are quotations on goods on which you pay the freight and which are not seen until they arrive in town, covering a probability of dissatisfaction.

These catalogues are certain of being viewed favorably by many and for that reason a note of warning and call for justice should be sounded. Would it not be a wise move toward justice, if the intending purchaser would go to a local dealer and get his cash figures on the same articles? It would be well to get his credit figures also, for it is a well-known business axiom that it costs the merchants at least fifteen per cent to do a credit business. Why cannot the purchaser profit by this amount? If the purchaser has the money to send to these mail order houses, why should it not be left with the home dealer, if the prices are approximately the same? If such is done, home money is kept in the home town, the merchant will be encouraged and he will be getting a square deal from a reasonable public. At least before an order is placed with such houses of business, and before the cash is sent, prices should be obtained from the home merchant. It will be a step towards giving him a square deal.

A few days ago, a party in town being unable to procure certain articles until the local merchants had brought them in, wrote for quotations and the estimate given was upwards of \$75. Cash figures on the same articles were received from a local dealer, who could procure the goods in a short time. There was a difference of several dollars in the two estimates, but it was not in favor of the mail order house; rather the local merchant could procure the goods at a cash figure, under sell the mail order house; and still have a working profit. Perhaps this is not always the case, but surely the people of the town and district are fair enough and consider their interest to such an extent as to at least give the home dealer an opportunity to figure on the order.

## ABOLISH FINANCIAL WORRY PROLONG YOUR LIFE

A CANADIAN GOVERNMENT ANNUITY WILL DO IT

Gives a larger return for life than is obtainable from any other form of investment with absolute security.

Free from Dominion Income Tax.

Any person resident or domiciled in Canada over the age of 5 may purchase, to begin at once, or at any later date desired, an Annuity of from \$50 to \$5,000, to be paid in monthly or quarterly instalments.

Any two persons may purchase jointly.

Employers may purchase for their employees.

**CONSERVATION OF SOIL  
FERTILITY & SOIL FIBRE**

Of unusual interest to the farmers of Western Canada is the publication relating to Conservation of Soil Fibre and Fertility just issued by the Commission of Conservation. This pamphlet contains a series of papers and discussions by leading authorities on the problems confronting the prairie farmer. Particular attention is paid to the control of soil drifting, the retention of moisture and to cropping systems for drought areas.

The purpose of this publication is to place before the western farmer the results of the experimental work conducted by the Dominion and Provincial Departments of Agriculture, and by the Agricultural Colleges, in their efforts to determine the cropping systems and methods of cultivation most suitable for the various prairie areas particularly those which have suffered most severely from soil drifting and from drought.

Copies of this pamphlet may be obtained free on application to the Commission of Conservation.

**LETTERS to  
the EDITOR**

We are not responsible for opinions expressed by correspondents

The following is published for the information of the election in Division 6 of the M.D. of Vale. (Copy of Letter to Department.) Edmonton, Alberta March 31, 1921. Department Municipal Affairs, Edmonton

Gentlemen:—

At the request of a number of ratepayers, I have been instructed to get information from your Department in regard to the handling of Seed Grain during the year of 1919.

Could a member of the 1919 council legally be paid for assisting in the handling of the Seed Grain?

If not would he forfeit his seat on the council by accepting such money?

Would he be eligible for future election to the Council?

Thanking you I am

Yours truly,

O. L. DEMPSEY

Sec-Treas. Vale No. 392

(Copy of Letter Received from Department of Municipal Affairs)

Edmonton, April 6th, 1921

Sir:—

In answer to your question as to the legality of your Council to pay a member of the Council for the handling of Seed Grain, permit me to direct your attention to sections 93 and 94 of the Municipal Districts Act, wherein you will note that it is not permissible for any member of the council to accept payment with respect to any service of the Municipality under which any money of the Municipality is to be paid for such service.

The only provision as regards remuneration given to councillors will be found under section 74.

Your obedient servant

J. H. LAMB,

Deputy Minister

Otto L. Dempsey, Per S. V. L.

Sec-Treas. M. D. of Vale 392

Edmonton Alta

**SUCCESS IN PRAIRIE  
TREEPLANTING**

In raising trees, as well as other crops, it is always advisable to follow nature's methods as closely as possible. If we do this we may confidently expect a very far measure of success to attend our labors. In nature trees require a fairly loose, porous soil, and it is therefore necessary to bring broken sod of the prairie and expect them to life under ordinary circumstances.

Just now when the tractors are starting out it might be well to note that during the last eight months, of 1920 no less than eleven men were burned to death by their gasoline-soaked clothing catching fire while they were striking matches.

**STRAWBERRY CULTURE  
ON THE PRAIRIE**

Connected with every home in the rural districts there should be a garden, and where the area of the garden and available labor will permit, a strawberry bed should be included. On the prairie only hardy sorts should be tested at first; later, when the grower has more experience, superior varieties may be tried and the everbearing strawberries grown. At the Scott Experimental Station the Dakota variety has proven much harder than any other kind. It bears runners freely and being quite hardy, a good bed of vigorous plants is always maintained. The fruit is of good flavour. The flowers are "perfect" consequently only the one variety need be planted. In securing plants it is important that they should be ordered and shipped early in the season and it is usually advisable to purchase the stock so that there will be very little delay in transit, as the roots frequently dry out and failure of the plants to start is often due to this cause.

Next in importance to securing hardy plants comes the proper preparation of the soil. Well worked summerfallow is preferable and the strawberry plants thrive better if there is not too high a percentage of clay and if some rotted barnyard manure has been applied. In the spring previous to planting the bed should be worked down; it will become more firm if worked when there is moisture in the soil. It may be necessary to use a soil packer or roller immediately before planting to bring the moisture level up near the surface. This is important since the strawberry is a shallow rooting plant and it is essential that the roots be put into the moisture. In setting out, the roots should be kept moist by keeping them in damp moss in a pail with water to cover the roots.

The plants, if set fifteen inches apart in the rows, should multiply sufficiently of form a matted row, as this system of growing strawberries is preferable in the west where there is so much wind. The rows should not be closer than four feet, and five feet is to be preferred. In planting, the crown of the plant should be at the surface after the soil has been pressed down firm. It is a good plan to remove all the leaves excepting two and trim all the long, straggling roots. In order to encourage the runners to set, lumps of earth or wooden pegs should be used to hold them down close to the earth and to prevent the wind from whipping them around.

If at all possible, the bed should be located where there is some protection from the wind. A Caragana hedge affords splendid protection. In some districts banks of manure are built along the windward side of the strawberry bed. These, in addition to protecting the plants from the winds in the summer, provide a trap for the snow during the winter and this affords more moisture for the summer. Winter protection consists in covering the plants with from eight to ten inches of straw. This much should be left on fairly late in the spring to prevent blossoms from forming too early and being frozen. The straw should be clean and free from weed seeds, as it is found

**BAILIFF'S SALE**

Under and by virtue of a Distress Warrant given by Union Bank and others, to sheriff, Edmonton Judicial District and to me directed against the goods and chattels of Riley Goodrich named in the said Distress Warrant, I have seized the following goods namely:

H. Y. PAWLING

Secy-Treas.

27-4c

that the mulch is frequently responsible for the introduction of foreign growth into the strawberry bed.

Clean cultivation is absolutely essential for successful strawberry growing. The bed should be weeded early in the spring and again after the fruit season is over. If the bed is properly looked after, it will usually bear good crops for three years but if weeds or grass are permitted to grow, the plant food is soon exhausted, the soil robbed of moisture, and the usefulness of the bed destroyed.

**MUNICIPAL AND REAL  
ESTATE FINANCE  
IN CANADA**

The pamphlet entitled "Municipal and Real Estate Finance in Canada" just issued by the Commission of Conservation touches upon some of Canada's most difficult financial problems. It is a clear and convincing statement by Mr. Thos. Adams, Town Planning Adviser to the Commission, regarding housing, land speculation and high taxation, resulting from municipal waste and mismanagement.

No national problem in Canada is of greater importance than that which has to do with the conservation of human and financial resources in our cities and towns. This publication emphasizes the fact that until we employ saner methods in developing our community life any efforts being made to conserve our natural resources must be nullified as a result of the careless way in which the wealth derived from these resources is dissipated by bad forms of land development.

This pamphlet may be obtained free on application to the Commission of Conservation, Ottawa.

**LOCAL NOTES**

BORN—To Mr. and Mrs. H. C. Montgomery on April 14th, a daughter. So the "snakes" have been going round all week!

BORN—To Mr. and Mrs. E. Symes, of Battle View on April 5th a daughter.

BORN—To Mr. and Mrs. H. Patterson, near Wainwright, on April 6th a daughter.

BORN—To Mr. and Mrs. W. Muncester near Wainwright, on April 10th a son.

Congratulations all around!

Miss A. M. Dawson, is at the Fraser store this week in the interest of the Butterick Pattern Company.

A pleasant "little hop" was given after the show on Friday night, at which quite a large number fully enjoyed themselves.

Mr. J. W. Stuart and son Phil, returned on Friday after a week spent at the big Spring Show in Edmonton.

The Misses Edythe Love, Florence Torg, Jean Rosholt, Sybil McLeod, Irene Coleman, Phyllis McLeod, Mary Scofield, and Bessie Welch were guests of Miss Carolyn Rosholt at a delightful party on Friday last.

Mr. Harry Mabey with his two boys Miles and Lee have arrived home from their city visit where they were on the list of exhibitors.

Ladies, the fine weather is coming. Be prepared: get your calling cards printed now at The Star office.

Mr. N. B. Zinkan, of Edmonton, spent a few days in town with his son, W. E.

We sympathize with Mr. Jack Chandler, of the park staff who was taken to Edmonton on Monday last suffering from a severe attack of pneumonia.

Mr. and Mrs. A. C. Armstrong, moved into their cottage on Third avenue on Monday last.

Mr. George Cross is entertaining a visitor in the person of his brother from the east.

Charlie Church is merrily plowing these days and reports his land in fine shape for working.

Zinkan and Co., have received in a recent shipment, comfortable house shoes or staple lines for women.

ALL Rebekahs are required to attend lodge tomorrow evening. Refreshments will be served.

We learn that Mr. M. B. McLeod has rented the Dawson farm, "lock, stock and barrel" and wish him all success in his venture "J. H." is becoming a townsman for a rest. (?)

Miss M. McFarland spent the week end with relatives at Irma.

It isn't the crowd that follows the hearse when you're taking your last ride that counts—it's the gang that walks with you when your feet are sore. Cut flowers are worth a lot more in your sick room, when you can smell them, than they are on your coffin when you've quit smelling.—Exchange

We would remind many of our citizens that by getting the banking away from their premises as soon as possible they will greatly mitigate the fly trouble later on.

# How to take full advantage of Special Offers in Dress Goods

**DO YOU** sometimes see a tempting bargain in the dress goods department—just what you have wanted—and reluctantly pass it by?

You are not sure enough of your skill, perhaps, to cut the material exactly right, and so be sure of having a successful garment.

There is no trouble like that if you are guided by **THE DELTOR**.

First of all, **THE DELTOR** tells you exactly how much material is needed for your size, in every width of material.

You know whether there is enough for your purpose. You won't buy too much and you won't buy too little, for guesswork is eliminated.

**THE DELTOR** also tells you exactly how to cut each piece of the garment to the best advantage; you can not waste the material if you follow the simple directions—**THE DELTOR** tells you at a glance.

What is **THE DELTOR**?

**THE DELTOR** is the newest invention for perfecting home dressmaking—supplied only with Butterick patterns.

*The Deltor is a picture-story, simple, plain, easily understood*

We announce that we are making available for you the one greatest thing that has happened in the interests of dressmaking during your lifetime.

We invite your investigation.

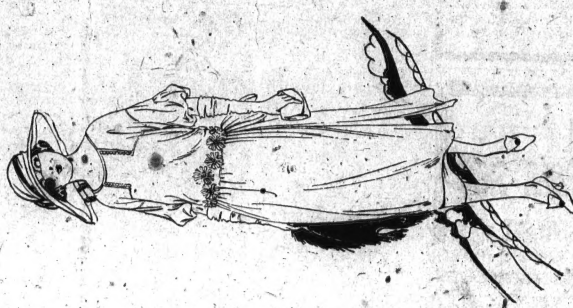

For the day has come, thanks to **THE DELTOR**, when the money which bought but one exclusive frock will now buy two or three, created as well or better, by yourself.

How shall the cut-out pieces go together and fit perfectly?

**THE DELTOR** will show you at a glance.

How shall the garment, now it is together, be finished at every point so that it will have all the charm and touch of the professional creations?

**THE DELTOR** tells you.
